PROFESSIONAL EXPERIENCE

Mars Inc.

- **Mars Veterinary Health (MVH)**
- **BluePearl Specialty + Emergency Pet Hospital**

January 2025 - Present
October 2020 – January 2025

Senior IT Project Manager

Selected Achievements

- Directed enterprise technology initiatives supporting operational transformation, infrastructure modernization, and business capabilities across 110+ specialty and emergency veterinary hospitals.
- Designed and implemented an enterprise demand intake and governance operating model that strengthened executive visibility, portfolio prioritization, stakeholder accountability, and project delivery across 128+ technology initiatives.
- Established PMO governance standards by introducing standardized reporting, RACI ownership models, RAG status reporting, Level of Effort (LOE) estimation, and project prioritization frameworks that improved organizational project management maturity.
- Partnered with executive leadership to strengthen portfolio governance, resource planning, financial accountability, and strategic technology planning supporting enterprise business transformation.
- Mentored project managers and business stakeholders on enterprise governance and project management best practices.

US Air Force Reserve

September 2000 – Present

Lieutenant Colonel, Director of Operations

Selected Achievements

- Currently serving as Director of Operations for the 36th Aeromedical Evacuation Squadron, bringing 25+ years of leadership experience spanning Aeromedical Evacuation, Aerospace Medicine, medical readiness, logistics, and enterprise process improvement.
- Directed medical readiness, logistics, inspections, and operational support functions supporting organizations ranging from 60 to more than 160 personnel.
- Served as Director of Operations during a six-month U.S. Central Command (CENTCOM) deployment, enabling 50+ Aeromedical Evacuation missions and the safe transport of more than 220 patients while contributing to operations recognized with the Air Force Gallant Unit Citation.
- Managed a \$50K operating budget, directed a \$393K warehouse modernization project delivered approximately 20% under budget, and oversaw relocation of more than \$3.5M in operational inventory.

- Directed inspection and compliance programs resulting in zero findings across 11 programs and 135 inspection items.
- Championed development of a local portable patient oxygen (NPTLOX) calibration capability, eliminating reliance on external support, increasing aircraft cargo capacity, and improving operational readiness.
- Increased medical readiness compliance from 5% to 89%, improving organizational readiness capability by 77% through process improvement and operational leadership.

US Air Force

March 2020 – September 2020

Senior IT Project Manager / Contractor

Selected Achievements

- Brought into the Aim High U.S. Air Force recruiting mobile application program to strengthen project governance, executive reporting, and program execution during the latter stages of development.
- Served as the program's project management subject matter expert, advising leadership on governance, scheduling, technical performance, risk management, and industry best practices.
- Developed executive-level program reporting and stakeholder communications that improved project visibility, accountability, and executive decision-making.
- Applied enterprise project management practices supporting program planning, contract execution, risk mitigation, and successful delivery of program objectives.
- Coordinated cross-functional stakeholders to monitor project execution, identify emerging risks, and implement timely mitigation strategies throughout the project lifecycle.

WellCare

September 2019 – January 2020

Senior IT Project Manager / Contractor

Selected Achievements

- Directed enterprise healthcare technology initiatives supporting strategic business objectives through hybrid Agile and Waterfall delivery methodologies.
- Led cross-functional teams through all phases of the project lifecycle, aligning scope, schedules, resources, and stakeholder expectations to successful project outcomes.
- Proactively identified, communicated, and mitigated program risks and critical issues, enabling executive leadership to make timely, informed decisions.

ValGenesis, Inc.

May 2017 – September 2019

Product / Project Manager

Selected Achievements

- Directed enterprise implementation and delivery of the ValGenesis life sciences validation platform, aligning technology solutions with complex business and regulatory requirements.
- Led cross-functional teams responsible for solution planning, configuration, testing, deployment, and successful client adoption across the full project lifecycle.
- Managed project budgets, schedules, resources, and scope while proactively identifying risks, resolving complex business challenges, and maintaining executive stakeholder alignment.
- Partnered with client leadership to define implementation strategies, prioritize business objectives, and successfully manage scope throughout project execution.
- Delivered validated enterprise software solutions supporting operational excellence within highly regulated life sciences environments.

JP Morgan Chase

April 2016 – March 2017

IT Project Manager / Contractor

Selected Achievements

- Directed an enterprise portfolio of technology initiatives within the PMO supporting critical business operations, digital capabilities, and strategic service delivery with responsibility for an estimated \$2M project portfolio.
- Led enterprise technology initiatives involving cloud platform modernization, robotic process automation (RPA), identity and access management (IAM), and portfolio governance supporting large-scale business transformation.
- Partnered with executive business and IT leadership to align technology investments, project priorities, and strategic objectives across multiple enterprise initiatives.
- Directed all phases of enterprise project delivery, including planning, budgeting, resource management, stakeholder communications, risk mitigation, and executive reporting.
- Strengthened governance, project execution, and cross-functional collaboration through disciplined portfolio management and enterprise project leadership.

Ashley Furniture Industries, e-Commerce Systems**September 2014 – February 2016***IT Project Manager***Selected Achievements**

- Served as a key PMO leader directing governance, delivery, and optimization of a new enterprise Content Management System (CMS) and supporting technology platforms driving the company's eCommerce strategy.
- Directed enterprise technology investments by establishing portfolio priorities, execution strategies, performance metrics, and post-implementation measurement supporting executive decision-making.
- Developed executive portfolio reporting and performance metrics providing leadership with visibility into project status, delivery performance, and strategic outcomes.
- Led enterprise software delivery utilizing both Agile and Waterfall methodologies while managing scope, schedules, resources, stakeholder communications, and project risk.
- Contributed to significant eCommerce revenue growth through successful delivery and optimization of the company's highest-performing Content Management System.

Franklin Templeton**March 2014 – June 2014***IT Project Manager / Contractor***Selected Achievements**

- Directed the transition of User Acceptance Testing (UAT) project management responsibilities to the Quality Assurance organization, ensuring continuity of testing operations and governance.
