- Organizational Change Management & Benefits Realization
- Continuous Improvement
- Agile, Scrum, Waterfall & Hybrid SDLC Delivery
- Requirements, UAT & Release Management
- MS Project, Jira, Azure DevOps, Smartsheet & Monday.com
- Cloud, Infrastructure and Enterprise Application Delivery

PROFESSIONAL EXPERIENCE

Mars Inc - Mars Veterinary Health / BluePearl **Oct 2020 - Present**

Senior IT Project Manager

- Standardized and automated demand management in two weeks across 128+ initiatives, separating operations from projects and clarifying intake, effort estimates, prioritization, approvals and delivery responsibilities.
- Reorganized the healthcare technology security program within four weeks, separating projects from operations and documenting ownership, status, requirements gaps and next steps for leadership review and handoff.
- Directed infrastructure modernization across 110+ hospitals; partnered with executives on annual technology planning and budget forecasting, aligning roadmaps, dependencies and capacity with business priorities.
- Coordinated joint planning across departments and vendors for network, hardware, telecommunications, data, automated pharmaceutical dispensing cabinets and recycling initiatives.
- Managed end-to-end delivery using Agile, Waterfall and hybrid approaches, including charters, resource planning, UAT, CAB approvals, go-live readiness, hypercare and support transition; resolved delivery risks and issues.
- Facilitated steering-committee and executive portfolio reviews, translating KPIs, risks, dependencies, resource utilization and financials into prioritization, sequencing and trade-off decisions.
- Led PPM tool evaluation and pilots; strengthened PMO governance through RACI and automated workflows while mentoring project managers and business stakeholders.

US Air Force - Fixed-Term Assignment **May 2020 - Sep 2020**

Senior IT Project Manager (Aim High Mobile Application)

- Supported Waterfall delivery of Air Force recruiting application development and a $4.8M modernization capability.
- Established best practices, strengthened governance and executive reporting, and advised on cost, schedule, risk and contract changes.

PRO Unlimited - Consultant to Raymond James Financial **Jan 2020 - May 2020**

Senior IT Project Manager

- Managed Waterfall delivery for a $1.5M ePMO portfolio, including budgets, forecasts, schedules, risks and executive reporting.

Pitisci & Associates - Consultant to WellCare **Sep 2019 - Jan 2020**

Senior IT Project Manager

- Led hybrid Agile, Scrum and Waterfall healthcare initiatives, managing scope, integrated schedules, resources, risks, issues and dependencies; provided executive reporting and removed delivery barriers.

ValGenesis Inc **May 2017 - Sep 2019**

Product / Project Manager

- Led up to seven concurrent regulated life sciences SaaS implementations using hybrid Agile/Waterfall delivery, with budget responsibility nearing $1M; directed distributed teams through requirements, configuration, testing, release and adoption.
- Partnered with client executives on implementation strategy, resource priorities, risk resolution and scope control.

The Judge Group - Consultant to JPMorgan Chase **Apr 2016 - Mar 2017**

IT Project Manager

- Managed Waterfall delivery for an estimated $2M portfolio spanning cloud modernization, cloud security, identity and access management, robotic process automation and service delivery.
- Controlled budgets and risks and aligned sponsors and stakeholders from Executive Director through Managing Director.

Ashley Furniture Industries - eCommerce Systems **Sep 2014 - Feb 2016**

IT Project Manager

- Led enterprise CMS governance, joint release planning and Agile/Waterfall delivery of 250 to 1,650 development hours; set portfolio priorities and roadmaps, managed resources and risks, reported benefits and made hiring recommendations.

KForce - Consultant to Franklin Templeton **Mar 2014 - Jun 2014**

IT Project Manager

- Managed UAT-to-QA transition, including test plans, requirements reviews, schedules, resources and approvals.

CLARIFIRE **Mar 2013 - Mar 2014**

IT Project Manager

- Led joint release planning, hybrid Agile/Waterfall delivery, Scrum ceremonies, backlog grooming and client implementations, contributing to a 50% increase in assigned-client project revenue.
- Drove continuous improvement through standardized operating processes, improving delivery efficiency by 90% from baseline; coordinated API security testing and implementation.

CIBER Inc **Sep 2006 - Mar 2013**

IT Project Manager / Account Manager / Principal Consultant

- Advanced into account and principal-consulting leadership, directing U.S. and India-based matrix teams for Fresenius Medical Care, UnitedHealth Group and WellCare; held contributors accountable and reassigned work when delivery risks emerged.
- Validated client staffing needs with delivery teams and secured director and VP approval to expand the account team.
- Led Waterfall healthcare deployments across approximately 1,600 locations; standardized network architecture and deployment methods to cut implementation and support costs by 25%.
- Established UnitedHealth Group claims release governance, coordinated joint release planning and trained consultants to support quarterly and interim releases without service interruption.
- Managed recurring technology procurement, including a package exceeding $1M; negotiated vendor and warranty terms that reduced warranty-service costs by 30%.
- Reduced consultant onboarding time by 70% through standardized estimation practices; lowered Sarbanes-Oxley (SOX) compliance risk through stronger documentation, tracking and audit readiness.

Mohegan Sun Casino **Mar 2004 - Sep 2006**

IT Analyst 2 - Project Leader

- Handled problem management, triage and higher-level escalations; led infrastructure and service improvements that increased availability, and built analyst training that reduced onboarding time and increased productivity.

Foxwoods Resort Casino **Feb 2002 - Mar 2004**

IT Associate Analyst

- Provided technical and field support for enterprise applications, hardware, software and networks, including problem triage, troubleshooting, resolution and escalation.

CONCURRENT MILITARY EXPERIENCE

US Air Force Reserve **Sep 2000 - Present**

Lieutenant Colonel, Director of Operations | Concurrent Reserve Service

- Lead officers and senior enlisted leaders across IT and operational functions who manage their own staff; draw on 26+ years of military service and 19+ years of formal people leadership across teams of up to 40 and units of 60-160+ personnel.
- Conduct formal performance evaluations and make personnel decisions for officer and enlisted direct reports; interview, select, hire and place leaders; address underperformance, and direct career development, succession, backfill and transition planning.
- Served as Director of Operations during a six-and-a-half-month U.S. Central Command deployment, enabling 50+ aeromedical evacuation missions and the safe transport of 220+ patients; recognized with the Air Force Gallant Unit Citation.
- Established training tracking raising operational compliance from 5% to 89%; realigned teams, increased deployment preparedness to 77%; directed compliance programs with zero findings across 11 programs and 135 inspection items.

- Allocated resources and funding to priorities; managed a $393K project and $3.5M inventory relocation. Selected a vendor proposal 20% under budget; improved operational efficiency through faster turnaround and greater equipment availability.
- Served as primary emergency management lead during a deployed crisis, ensuring personnel accountability and continuity of operations.
- Led four major training events involving 270 personnel and approximately $1.8M in equipment and supplies, achieving all critical goals and a 57% cumulative improvement in required training and preparation.
- Supervised IT support resolving 280+ tickets and directed a technology refresh with 100% asset accountability while overseeing 43 programs.
